

Arizona Chapter Report
January 06, 2013

Membership: 24

Carry forward: \$ 630.28

Lookout related information:

-Continued to revisit and re-photograph all Arizona fire lookouts although on a much slower pace this past year.

-Visited Mark Gutzman in Cloudcroft, NM in June reference the hosting of the 2013 Western FFLA conference. A very positive site which was later confirmed.

-No lookouts were added to the NHLR.

-In general I did not devote as much time to the FFLA as the two previous years as I was completing my research on the **“World War II Military Aircraft Crashes on the San Francisco Peaks”**, and made multiple power point presentation through the state of Arizona.

Goals for 2013:

-Provide 1-3 NHLR nominations.

-Assist Mark Gutzman on the Western FFLA conference to be held in New Mexico and communicate with Arizona membership about attending the conference.

-Continue to assist the local national forest as requested.
