

Forest Fire Lookout Association Southern Cascade Chapter 2016

The Southern Cascade Chapter is, like the weather and season Dormant! Last year I did not go up to any of the L3 lookouts in the area. I did check on them with outside sources. The three lookout are Burley Mtn, Watch Mtn, and High Rock. As of late Summer and Early Fall, it was reported that all were still there and in good shape! Burly is shuttered and secure, Watch Mtn is shuttered and secure, High Rock has no shutters, but was painted last year, Burley needs a coat of paint and repair of the north shutter hinge.
